## BOLSHEVIK ARMY NOW IS WITHIN 20 MILES OF WARSAW

Will Be in City Before  
Peace Is Concluded,  
Officials Think

### POLES WON'T GIVE UP

Citizens of Warsaw to Number  
of 100,000 Pledge to Fight  
to the Last Breath

By The Associated Press)  
Paris, Aug. 13. — Closing in upon  
Warsaw from the north, east and  
south, the Bolshevik hosts are now  
within 20 miles of the capital, and lit-  
tle doubt is felt here they will be in  
the city before the peace negotiations  
are concluded.

The Northern Reds, according to  
the latest news reaching Paris to-  
night, had passed Pultusk and were  
marching southward on the capital  
down the valley of the Narew. An-  
other column was advancing between  
the Narew and the Bug, while south  
of the Bug, the enemy had reached  
and passed the line running from Pus-  
tusz through Piviki, Dobro, Kaluszyn,  
Tegloss and Latowicz, to Velechov.  
Harder south, the enemy had suc-  
ceeded in forcing a passage of the  
Bug and was moving on Lublin.

The Bolshevik cavalry along the  
Prussian frontier has made another  
bound forward and is now 40 miles  
beyond Mlaw, almost half the way to  
Thorn.

In other words, the Reds are ad-  
vancing all along the line, except in  
the extreme south.

Citizens of Warsaw to the number  
of 100,000 have pledged themselves  
to defend the capital to the last  
breath, but it is felt here that such an  
unorganized effort cannot seriously af-  
fect the face of the city. This appar-  
ently is the view of the Polish  
government, which is reported to be  
contemplating moving to Posen if it is  
satisfied there is no chance of the Soviet  
forces suspending hostilities at an early  
date.

### Poles Admit Red Victories

Warsaw, Aug. 13. — Contact with  
the Bolshevik line in spots is only 40  
kilometers — about 26 miles — from  
Warsaw, says an official communique  
issued tonight.

The communique describes the War-  
saw front along the line Wyszow,  
Plesz, Kaluszyn and Ciechanow as  
weak.

Preparations are being made to pre-  
vent the Bolsheviks from reaching the  
Posen district. Bolshevik cavalry de-  
tachments, driving westward after the  
capture of Mlaw, have reached the  
Warczew region. They are now less  
than 20 miles from the Vistula river.

Warsaw hummed tonight with mili-  
tary activity, but only soldiers and  
officers were allowed in the streets.  
Preparations for the defense of War-  
saw were being made, and lights  
burned until late in the war offices  
and the foreign office, where affairs  
of state were being discussed. The  
terms and conditions to be carried by  
the Polish delegates who will meet  
the Soviet representatives on Satur-  
day to discuss peace preliminaries,  
were also being drafted.

The Associated Press will be repre-  
sented with the delegation, and an  
effort will be made to send daily dis-  
patches, either by the wireless tele-  
graph or by the daily courier to Mos-  
cow from the scene of the negotia-  
tions.

In this city it was announced to-  
night that outgoing personal mes-  
sages would not be accepted at the  
Telegraph office here. This is a mili-  
tary measure to prevent the possibi-  
lity of news of troop movements get-  
ting out. Besides this, the officials  
wish to devote all the wires to gov-  
ernment business, for the most part,  
because of the crisis brought about  
by the Soviet advance.

Cherbourg, France, Aug. 13. — A  
new torpedo boat, launched here to-  
day, has received instructions to re-  
port to General Wrangel at Sebasto-  
pol on the Black sea.

Paris, Aug. 13. — Belief that  
General Wason, of the French  
army, will not accept the offer made  
to him by the Polish council of na-  
tional defense to take supreme com-  
mand of the Polish forces, is express-  
ed in an announcement printed by  
Le Temps today. The General, who  
is in Warsaw as a member of the  
French mission, the announcement  
states, will remain advisor to the Pol-  
ish government.

### Bolshevik Terms For Peace With Poland Are Drastic

Washington, Aug. 13. — A plebis-  
cite to determine the future of Rus-  
sia and Poland is one of the peace terms  
laid up by the Bolsheviks coincident  
with the first proposal of an armistice  
by the Polish government. The right  
of unrestricted propaganda in this ter-

## MUSTN'T FORGET LESSONS OF PAST, HARDING WARNS

Nominee Makes Reply to  
Charges Republicans  
"Look Backward"

### ADDRESSES EDITORS

Advocates Editorial Policy "Not  
Partisan But Patriotic;"  
Pleads For Honesty

Marion, Ohio, Aug. 13. — Replying in  
a speech here today to charges that  
the Republican party "is looking back-  
ward," Senator Harding declared that  
although the future held promise of  
new achievements and progress, it  
would not do for the nation to forget  
the lessons of the past.

Without referring directly to the ac-  
ceptance speech of Governor Cox, his  
Democratic opponent, the Republican  
nominee repeated criticisms of his  
party made in that speech and replied  
that if to remember the teachings of  
the fathers of the republic was to live  
in the past, then he was "happy to  
drink of the past for my inspiration  
for the morrow."

The senator's address was made be-  
fore the Ohio Republican Editorial  
association, and in it he took occasion  
to speak for a forest policy that would  
insure an adequate domestic supply  
of print paper pulp and all other home  
demands. He also advocated an edi-  
torial policy "not partisan but patri-  
otic," and made a plea for honesty in all  
business relations.

### In Good to Look Back.

"I suppose some people will say I  
am 'looking backward,'" said Senator  
Harding after declaring his faith in  
the old time standards of patriotism  
and morality. "But if we may look  
backward to clear our vision, we may  
look forward more confidently. It is  
good to look back to make sure of  
the way righteously mothers taught and  
face the front with renewed faith."

The text of the speech follows in  
part:  
"The passing years have wrought  
great changes in the newspaper busi-  
ness. The prolific inventors of print-  
ing machinery and other appliances  
have borne their share in it, the free  
rural delivery, the advance in educa-  
tion, bringing new multitudes of read-  
ers, have all had their influence in the  
developments and evolutions which  
have followed.

"In the days of thirty or forty years  
ago, there was a bitterness and acerb-  
ity about political discussion which  
caused the factional newspaper to  
multiply, if not to flourish. It was  
not difficult to start a newspaper in  
those days.

"But now it costs real money to  
equip a newspaper plant. The 'high  
cost of printing' has had its way with  
us."  
"The changes have been great, but  
I question whether they have all been  
in the nature of improvements. The  
old time paper—going back to the last  
half of the last century—was usually  
a real journal of opinion. It reflected  
the convictions as well as the opinions  
of its owner and editor, and it was a  
real moulder of opinion in its influence  
upon its readers and the community it  
served.

### Old Standards Are Needed.

"The editors were not always great  
writers, but they were generally pa-  
triotic, and honestly desirous to  
render service. And they were gener-  
ally partisan and they preached party  
dogma and believed in it."  
"Sometimes it seems to me that the  
transition from the party organ to the  
'independent' newspaper, in its  
editorial expression, uttered the con-  
sidered views of a large element of our  
citizenship, while the 'independent'  
paper is often the organ solely of its  
owner, or it is colorlessly neutral."

### SWANS BECOME SEASICK.

New York, Aug. 13.—Six hundred  
birds, beasts and reptiles from Re-  
gents park zoological gardens, Lon-  
don, arrived here today on the steamer  
Minnesota, en route to the Bronx zoo.  
Rare creatures in the collection in-  
cluded a white wild ass, said to be  
the only one in captivity; a panda cat,  
bearing one of the smallest in existence,  
standing only 15 inches in height; five  
black apes with white eyebrows, two  
wild Indian swans, some black-necked  
grackles from China, and snakes in-  
cluding diamond pythons and cobras.

Of the many different species of  
"passengers," only the swans suffered  
from seasickness.

### LONGSHOREMEN TO RETURN.

New York, Aug. 13. — Coastwise  
longshoremen who have been on strike  
here since March 12, voted at a mass  
meeting tonight to go back to work  
Monday morning providing the steam-  
ship owners met the terms of the strike  
breakers they have employed. They agreed  
to submit their demands, including  
a wage increase of 15 cents an hour,  
to arbitration after they return to  
work.

### JENKINS TO VISIT U. S.

Mexico City, Aug. 13. — William O.  
Jenkins, chief United States consul-  
general at Puebla, Mexico, soon will  
visit the United States for the purpose  
of reporting to the government on his  
alleged kidnapping by Federico Cor-  
dova, the Mexican bandit chieftain, ac-  
cording to a dispatch from Puebla.

## Britisher Wins American Open Golf Championship

Toledo, Ohio, Aug. 13.—Edward  
Ray of Great Britain today won  
the national open golf champion-  
ship of America at Inverness with  
a score of 295 for 72 holes, thus  
carrying the cup to England for the  
second time. Harry Vardon  
having won the title 20 years ago  
and backing only two strokes of  
capturing it again today.

It was only by a stroke that  
the long driving Briton snatched  
the honor from three young Amer-  
icans, Leo Diegel and Jack Hutch-  
inson of Chicago, and Jack Burke  
of St. Paul, missing long putts by  
inches, to tie the score of the  
winner, who also outstripped his  
countryman, Vardon, by a single  
stroke.

## GRAND JURY WILL BE GIVEN SLAVIN CASE

District Attorney Swann Announ-  
ces Move Following McGraw's  
Second Failure to Appear

New York, Aug. 13.—District At-  
torney Swann announced today that  
he would present to the grand jury,  
without further effort to interview  
John J. McGraw, manager of the New  
York Giants, the case of John C. Sla-  
vin, actor, who was found Sunday  
morning unconscious in front of the  
McGraw home.

Mr. Swann made his announcement  
after McGraw today for the second  
time had failed to appear at the dis-  
trict attorney's office to give his ver-  
sion of how Slavin received a fracture  
of the skull after leaving the Lambs  
clubhouse with him in a taxicab.

The only word received from Mc-  
Graw today came from his physician,  
who sent a special delivery letter to  
Mr. Swann, stating that the baseball  
magnate was under his care and too  
ill to leave the house. A subpoena  
served previously sent to the McGraw  
home reported to Mr. Swann that he  
had the door slammed in his face and  
he was unable to serve the "re-  
quest" subpoena with which he was  
armed.

Mr. Swann, who has charged that  
an attempt is being made to "cover  
up" in the Slavin case, showed no dis-  
position to accept the physician's note  
at face value and this afternoon sent  
a county medical examiner, one of his  
own assistants, and a stenographer, to  
the McGraw home.

On receiving word from the medi-  
cal examiner that his party had been  
denied admittance to the McGraw  
apartment, Mr. Swann said:  
"First the courtesy was extended to  
McGraw to call at my office on his  
own accord. Then he was requested  
to come there, and now he has refused  
admittance to my assistant and to a  
county physician."

"So I have decided not to pay any  
further attention to him. There is no  
other alternative but for me to pre-  
sent the matter to the grand jury. I  
have given instructions to have the  
witnesses in the case appear before  
the grand jury early next week."

Meanwhile, it is expected that rep-  
resentatives of Mr. Swann will attempt  
tomorrow to question Slavin further  
regarding the manner in which he  
came by his injuries. Slavin's condi-  
tion today was reported improved.

## I. T. U. REFUSES TO GIVE LOCAL UNIONS MORE STRIKE CONTROL

Albany, Aug. 13.—The International  
Typographical Union in annual con-  
vention here today voted down a pro-  
position offered by New York City de-  
legates which, if approved, would have  
given more control to subordinate  
unions in strike matters.

"Resolutions favoring the exclusion  
of Japanese as immigrants and the  
recognition of the 'Irish Republic' also  
failed of adoption."

The convention adopted a resolution  
authorizing the appointment of one  
member of the Typographical Union  
to cooperate with other industrial com-  
mittees in the protection of forests.

lin, or the sturdiness of Jackson: if it  
is looking backward to recall the sym-  
pathy and steadfastness of Lincoln,  
the restoration of McKinley or the  
awakening of Roosevelt, I am happy  
to drink of the past for my inspira-  
tion for the morrow."

### Cox Plans Vigorous Assault.

Columbus, Ohio, Aug. 13.—Gov-  
ernor Cox in two addresses tomorrow  
at Wheeling, W. Va., plans his first  
vigorous assault upon the Republican  
stronghold.

## NEW ENGLAND'S GET-RICH-QUICK IDEAS DOOMED

Four Who Took Millions  
From Investors Are  
Behind the Bars

### PONZI LOSES FREEDOM

Unable to Secure Bondsman, He  
Is Jailed; Bankruptcy Pro-  
ceedings Instituted

Boston, Aug. 13. — Four men who  
have accepted millions of dollars from  
New England investors in the last  
few months, on promise of payment  
of fabulous interest, were behind bars  
tonight. Charles Ponzi, whose specu-  
lative financial dealings have made  
him known the country over, was sur-  
rendered today by the man who fur-  
nished \$35,000 bonds for his release  
after his arrest by the federal author-  
ities yesterday. Unable to find another  
bondsman, Ponzi was taken to the  
Middlesex county jail at East Cam-  
bridge.

Three officers of the Old Colony  
Foreign Exchange company were ar-  
rested, taken into the municipal court,  
and held in \$50,000 bonds each on a  
technical charge of larceny of \$500  
from persons unknown. In default of  
bonds, they spent the night in the  
Charles street jail. They are Charles  
M. Brightwell, president and treasurer  
of the concern; Raymond Meyers, of-  
fice manager, and Fred Meyers, sales  
agent. All three pleaded not guilty.

### Was Ponzi's Rival.

That the activities of this company  
might have rivalled in extent the deal-  
ings of Ponzi's Securities Exchange  
company, was intimated by Albert Her-  
witz, assistant district attorney of Suf-  
folk county, when he told the court  
that the amount involved in its trans-  
actions probably would be shown to  
be hundreds of thousands of dollars.  
It was upon this representation that  
he asked that the bonds be set at a  
high figure. The three men will be  
given a hearing on August 24.

Samuel Zorn, said to have been em-  
ployed by the company as an agent,  
was arrested at his home in the Dor-  
chester district tonight on the same  
charge as the three officers of the con-  
cern. No bail was fixed and he was  
locked up for the night.

Further criminal proceedings were  
taken against Ponzi today. In the  
municipal court, a blanket warrant  
was issued charging him with larceny  
in 53 counts, totalling \$24,000. Police  
inspectors were at the federal build-  
ing prepared to re-arrest Ponzi if the  
federal authorities released him again  
on bail, but as he was taken to jail,  
the municipal court charges against  
him were held in abeyance.

Further bankruptcy proceedings in  
which for the first time partners of  
Ponzi were mentioned, were brought  
in the federal court. The three peti-  
tioners were holders of Ponzi's notes  
for a total of \$2,625. They asked that  
Ponzi and John S. Dondero of Med-  
ford, and Guglielmo Bertolotti of  
Italy, named as his partners in the  
Securities Exchange company, be ad-  
judged bankrupt.

Rumors were current tonight that  
further developments bearing on "get  
rich quick" schemes might be ex-  
pected in the near future. There was no  
hint as to the nature of these develop-  
ments.

## GRANT 12½% BOOST IN EXPRESS RATES

Interstate Commerce Commission  
Refuses 25.16% Increase  
Asked By the Company

Washington, Aug. 13. — An in-  
crease of 12.5 per cent in express  
rates was authorized by the Inter-  
state Commerce commission today.  
Requests of the American Railway  
Express company for increases averag-  
ing 25.16 per cent, were found not  
justified by the commission, with the  
exception that rates on milk and  
cream be equalized with those con-  
temporarily applied by the rail-  
road lines between the same points.

The 12.5 per cent increase does not  
take into consideration the increase  
of wages of approximately \$30,000-  
000 a year recently awarded by the  
Railroad Labor board.

The commission held that no ade-  
quate basis had been found to sup-  
port the request of shippers for the  
exception of certain commodities  
from the application of increased  
rates. The commission also held that  
rail rates to apply in the absence of  
pick up and delivery service, or de-  
ductions from the published rates,  
where either service is not rendered,  
was not warranted.

The increased rates may be made  
effective upon not less than one day's  
notice by the filing of schedules with  
the commission. The express com-  
pany also was authorized to file  
blanket schedules making the in-  
creased commodity rates effective.  
The complete tariff, however, must  
be submitted within 90 days.

## TENNESSEE SENATE PASSES SUFFRAGE; NO VOTE IN HOUSE

Lower Body Adjourns  
to Monday Without  
Taking Action

### SENATE VOTE 25 TO 4

Women Workers Redouble Eff-  
orts to Secure Favorable  
Result in House

Nashville, Tenn., Aug. 13.—The  
Tennessee senate today, by a vote of  
25 to 4, adopted the resolution pro-  
viding for ratification of the suffrage  
amendment. Seventeen votes were nec-  
essary, but most polls had listed from  
20 to 22 as favoring the amendment  
and the high water mark was set at 21.

The suffragists, certain of ratifica-  
tion by the senate, have proceeded  
from the beginning of the legislative  
session with the expectation that the  
real fight would be in the lower house,  
and the senate vote had hardly been  
announced before the workers were  
redoubling efforts to secure favorable  
action by the house of representatives.

The house adjourned today until  
Monday afternoon at 2 o'clock with-  
out reference to suffrage, but it was  
stated later that the committee to  
which the resolution was referred  
would meet Monday night to  
consider it. There was no indica-  
tion what action would be taken,  
but in connection with rumors that  
the opposition might attempt to bury  
it in committee, it was recalled and  
efforts to force a report today were  
defeated by a vote of 8 to 5 with four  
members absent.

### Senate Chamber Packed.

An hour before the senate convened,  
the galleries and aisles were packed

## REDS TRAFFICKING IN RUSSIAN ROYAL JEWELS

131 Diamonds Recently Found  
on Swedish Sailor Entering  
U. S. Reveal the Plan

Washington, Aug. 13. — Traffic by  
Bolshevik agents in precious stones,  
supposed to have formed part of the  
famous jewels of the Russian royal  
family, has been unearthed by federal  
authorities. The 131 diamonds found  
on Nels Jacobsen, a Swedish sailor,  
by customs officials in New York, July  
23, it became known today, were en-  
closed in a package addressed to  
"Comrade Martens." Using this as  
a lead, federal officials began an in-  
vestigation which they declare has  
definitely connected Ludwig C. A. K.  
Martens, self-styled Soviet ambassa-  
dor to the United States, with the  
traffic. Disclosure of the fact that  
the package was intended for Soviet  
agents in this country was withheld by  
customs authorities when Jacobsen  
was arrested, although the details as  
to the seizure of the jewels themselves  
were made public.

Jacobsen, officials said today, iden-  
tified during the course of the investi-  
gation a photograph of Santori Na-  
orova, former secretary of Martens,  
as a person to whom previous pack-  
ages had been delivered.

Introduction of the alleged incriminat-  
ing evidence of the traffic in precious  
stones between Soviet representatives  
in this country and abroad at the last  
hearing in the last deportation pro-  
ceedings against Martens, resulted in  
postponement of further hearings un-  
til August 30 to enable the self-con-  
stituted ambassador to obtain evi-  
dence if possible in refutation of the charges.

New York, Aug. 13. — Ludwig C.  
A. K. Martens, unrecognized Russian  
Soviet ambassador to the United States,  
today disclaimed any knowledge of  
diamonds addressed to him which it  
was brought out at his deportation  
hearings, had been intercepted in New  
York by custom authorities.

Shown an Associated Press despatch  
from Washington stating that these  
diamonds were believed by the depart-  
ment of justice to have been part of  
the Russian crown jewel, Martens ex-  
pressed indignation at the depart-  
ment and asserted that all confiscated  
jewels were in the Russian Soviet na-  
tional treasury.

Charging that the department was  
trying to incriminate him in some-  
thing that would tend to create in the  
United States a sentiment unfavorable  
to Soviet Russia, he denied that he  
had any roundabout courier system  
operating through Sweden, and said  
that for the last 18 months he had  
been direct touch with Russia.

### BELEA KUN IN PETROGRAD.

London, Aug. 13.—Bele Kun, the  
former communist dictator of Hun-  
gary, has arrived at Petrograd, says a  
wireless dispatch received today from  
Moscow. He was sent to Russia by  
Austrian authorities, who had been  
holding him prisoner in Vienna. While  
en route through Germany he escaped  
but was recaptured.

## ATHLETES CLASH WITH OLYMPIC COMMITTEE

Virtually Force Reconsideration  
of Case of Dan Ahearn, Dis-  
missed From Team

Antwerp, Aug. 13.—The American  
Olympic athletes at a boisterous mass  
meeting tonight virtually forced the  
American Olympic committee to re-  
consider the case of Dan Ahearn, the  
hop-step-and-jump champion, with the  
athletes committee tomorrow. Ahearn  
was dismissed from the team today by  
the American Olympic committee for  
alleged insubordination.

In addition to the Ahearn case, other  
complaints of the athletes are to be  
heard.

The meeting was characterized by  
considerable feeling on the part of the  
athletes, during which there were car-  
calls and heckling of Gustavus P. Kir-  
by, president of the American Olympic  
committee, and Judge Barlow S.  
Weeks, of the committee, who address-  
ed the men. Also, there was consider-  
able wrangling among the athletes  
themselves, mixed with demands for  
silence from the more moderate of  
them as heckling interrogations were  
flung at the spectators.

After Mr. Kirby had outlined the  
action of Ahearn which resulted in  
his being dropped from the team,  
Judge Weeks spoke of Ahearn's alleged  
defiant attitude. Judge Weeks pleaded  
the need of team work among the  
athletes, and ended his remarks with  
the question, "What position would  
you be in if the committee refused to  
continue its duties?"

"Go ahead! We will get a better  
committee," and other similar remarks  
were shouted at Judge Weeks. The  
outburst of the athletes seemed to  
leave the committee stunned.

When Judge Weeks in a few mo-  
ments resumed his address he again  
was heckled with various questions  
and demands for silence on the part  
of some of the athletes.

## POPE REPORTED SLIGHTLY HURT AS RESULT OF FALL

Rome, Aug. 13. — (By the Asso-  
ciated Press). — Pope Benedict met  
with a slight accident today, slipping  
on the polished marble floor while  
going from his bedroom to his pri-  
vate library, the Messaggero states.  
He sustained a slight abrasion of the  
skin at the knee.

Emphatic denial was given at the  
Vatican late today to the report  
printed in the Messaggero that the  
Pope had sustained a fall. Monsig-  
nor Cerretti, papal undersecretary of  
state, declared he returned yesterday  
from Switzerland, where he had been  
on a vacation with Monsignor Charles  
A. O'Hearn, rector of the American  
college at Rome, and that both he  
and Monsignor O'Hearn saw the pope  
on their return and found him per-  
fectly well. There had been no sort  
of accident, he said.

## WILD PITCHES ARE COSTLY.

Robins Trounce Giants as Result of Pitches Toney's Wildness.

## Jockey Ensor's Pet.

Little Buddy Ensor talked horse between races at Jamaica track recently and spoke of a particular pet of his. "I've liked a lot of the animals I have ridden," said Buddy, "but none like Corn Tassel. There's a horse I love. How he could and would run for me! We were cronies. In the mornings, when the exercise boys would be walking him around the stable, I'd hide in a stall and then give a funny little whistle.

"Corn Tassel knew that whistle. He'd jump as though the barrier had gone up and he wouldn't stop tearing until he looked me. He knew I always carried sugar lumps for him. He was just like a big pet dog."

## Umpire Quits, Becomes Pinch Hitter, Wins Game.

Delaware Fan in All Seriousness Wants to Know if Team Can Use Arbitrator as a Player on One of Contesting Teams.

Fan from a town in Delaware, where they have independent ball, sends in a question, he wants answered, says Sporting News. The nature of it can't be understood until all the circumstances are related with their harrowing details, which, according to the inquiring fan, were about as follows, and he vouches for the truth of them by sending in a clipping from the local paper.

The Blue Rocks and the Mohawks were playing and they selected to umpire the game one Jack McGowan who happens to be a brother of Bill McGowan, umpire in the International league. McGowan was a member of the Blue Rock team, but on account of his reputation for fairness it was agreed he should call balls and strikes.

The game went along to a tie, 2 and 2, when McGowan made a decision that did not please the Mohawks, and they kicked so hard he quit and sat himself down on the Blue Rock bench.

Comes now the ninth inning, with another man umpiring. The manager of the Blue Rocks sent McGowan, as one of the players, in as a pinch hitter. McGowan slammed out a homer and won the game.

The question the fan asks in all seriousness is: Can McGowan, after acting as umpire, be used by his team as a player in the game he had started to umpire? We pass—the rules don't cover the point.

should more than make up for lost ground. He has been getting his orbs on the ball in better shape of late and promises to jump into the select 300 circle before long. When he does the Tiger fans will be happy.

## Wood Fibers.

The common ideas concerning wood fibers are not justified by the extended tests of the United States forest products laboratory. Each species of wood does not have its characteristic fiber length, but a greater difference may be found between the fibers of an individual tree than between the average lengths in different species. The length of fiber does not seem to affect the strength of the wood, as the longest fibers often belong to the weakest material.

STOCK EXCHANGE AGAIN  
EXHIBITS ITS STRENGTH

## Final Prices One to Seven Points Higher for Many Influential Shares

New York, Aug. 13.—The stock market gave an impressive exhibition of strength today. Final prices were one to seven points higher for many influential shares. The rise reflected the greater part of the week's early loss and carried many leaders well up above last Saturday's close.

Buying had its origin in the opinion that the market, at least for the time being, had been liquidated and that a turn for the better had set in. Inquiry embraced practically the entire list. The steel, oil, chemical, shipping, equipments, tobacco, food, motor, rubber, textile and high and low-priced railroad shares were purchased on a steadily-ascending scale.

When speculators for the decline began to cover, they found stocks scarce and were forced to bid up prices rapidly to secure a sufficient supply.

Foreign news was relegated to the background as a factor, and there was more inclination to take account of the strength of Sterling and the plentiful supplies of call money for speculative purposes.

Reports that the long-pending merger of various chemical corporations would be completed and the declaration of a 200 per cent stock dividend of the Standard Oil company of New York, were additional stimulating influences. Improvement in the high-class railroad shares was attributed to purchases by investment interests.

Bonds maintained their recent uneven course. Foreign issues were well sustained, but Liberty and Victory loans continued to give way. U. S. old governments were unchanged on call.

## "A DOUBLE-DYED DECEIVER"

By O. Henry

There is no attempt to point a moral in "A Double-Dyed Deceiver." It is not that kind of a picture. But, when the tale is told, the message that O. Henry so subtly wove into his thrilling plot is driven home—the message that no man is wholly bad and that love and kindness are the only true methods of reformation.

Jack Pickford is unique among motion picture stars in that he is the only one who can look and act the part of a young American, half boy, half man. He plays the Llando Kid with just the right touch of boyish bravado, getting over the fact at the same time that the reason he has been bad is because he never knew what goodness meant.

Mother-love plays an important part in the picture.

## Finds Ring Lost Years Ago.

Chester, Pa.—John Hunter the other day excavated from the soil in the rear of his Holland street home near Edgystone a diamond ring, which he had lost there more than 12 years ago. It was while spading that Hunter lost the ring from a hole in his pocket. He had no idea where he had dropped it, and in time forgot all about it.

He was turning over the soil again with a spade, and to his surprise the long-lost ring came up on a spadeful of dirt. A little washing and polishing restored it to its original beauty. The ring is valued at \$200.

## TERRIBLE CASE OF ECZEMA

Prominent Veterinary of Dover Suffered Tortures for Twelve Years

"FRUIT-A-TIVES" and "Sootha Salva" Finally Brought Relief

Dover, N. H.

"In 1908, I began to be troubled with Eczema. It started on my face and gradually spread. The second summer, I was so badly afflicted I had to lay off work. I would keep my hands tied up at night to prevent digging into my flesh while asleep. I spent hundreds of dollars in seeking relief. I would go for several months without trouble and then the Eczema would break out again and I would be in for a siege of suffering. My hands, especially across the knuckles, would be so puffed and swollen I could not do any obstetrical work or operations.

It was about three months ago I chanced to read an ad. of 'Fruit-a-tives' about a person being cured of Weeping Eczema by using this remedy and 'Sootha Salva'. I bought both and in about a week, noticed an improvement. I have now used two boxes of 'Fruit-a-tives' and one of 'Sootha Salva' and am entirely free of Eczema. My flesh is clear and smooth and I am that gratified with the result that I cannot proclaim too loudly the merits of these remedies".

E. N. OLZENDAM, D. V. M.

Both remedies are sold at 50c. a box, 6 for \$2.50. At all dealers or sent postpaid by FRUIT-A-TIVES Limited, OGDENSBURG, N. Y.

## GUARD WANTS TO RUN; REQUEST TURNED DOWN

Told His Job Is to Stay at His Post and Keep on Lookout for Forest Fires.

What do you think of having to telephone for permission to run from a look of bears—and then having your more or less palpitating proposal turned down?

That is what happened to J. W. Hodge, a fire guard on the Shenandoah National Forest, a few days ago.

Hodge was stationed at the lookout tower on Hankey mountain. It was his job to scan the skyline and to make expert diagnosis of faraway smoke smudges or any other indication of fire in the forest. This particular morning when he went to the lookout tower on the mountain top, he failed to attach his gun to his person. It was a mere formality, anyhow—and guns are cumbersome things to carry around.

Well, he got into his lookout box and began searching the dim blue distances that look like the further fringes of the world. He was very busy at that for a while. Then his eyes came back closer home, and what he saw made him wish for an airplane.

Forest Rangers and Fire Fighters Frequently Meet Grizzly Bears While on Duty.

to take him immediately to one of those far fringes. Three bears were browsing around only a little distance from his lookout tower. They were not apparently giving him any thought, but he did not know how soon they might become hungry. There being no airplane at hand, he decided to use his legs.

Then he remembered he could not leave his post without permission, so he called up District Ranger Shanklin, told the case before him, and requested permission to go for his gun. He was promptly told that the thing was impossible. The forests were dry, and fire might start anywhere at any time. Bears or no bears, it was Hodge's business to stay in that lookout box. Being a perfectly good forest guard, he stayed. Fortunately another lookout happened to listen in on the telephone conversation and succeeded in sending help to Hodge.

Best Timber for Airplanes. The best timber for airplane purposes was found to be Sitka spruce, known in England as silver spruce. It is light and at the same time strong, highly flexible and soft in structure, so that it yields to the impact of a bullet without being shattered.

## Perplexed.

Two comely old gentlemen on the green with putters in their hands and their golf balls a few feet from the cup. One of them is scratching his head in a perplexed fashion. "Jones, supposing I put this in. Who in blazes is going to get it out?"—Life.

## LOCAL EDITORIALS

## For a Community Center

More interest than the attendance  
indicated should be felt in the propo-  
sition presented yesterday at the Muni-  
cipal building for the coordination and  
combination of the general well-  
fare activities of the city. As is well  
known—so well that there is no need  
for extended comment—there are in  
Oneonta as in many other cities num-  
erous civic organizations working zeal-  
ously and accomplishing much good;  
but which after all do not do as much  
as they should because their labors are  
not sufficiently coordinated. There is  
much duplication of effort, and it is  
safe to assert that the same energy, if  
applied to the best advantage, would  
spread out further and accomplish  
more.

What it is proposed to do is to es-  
tablish a community center—prob-  
ably in the former public library build-  
ing, if arrangements can satisfactorily  
be made with the city, and under its  
roof to house the various public health  
activities, such as the Red Cross, the  
city nurse, the county tuberculosis  
work, the general health officer work,  
including clinics, the organization  
or organizations for the care of those  
in poverty or affliction, clubs and so-  
cial organizations for the young women  
of the city, the Home Economics clubs,  
and other bodies.

The interest which yesterday was  
manifested will no doubt be a general  
one when the matter is fully under-  
stood. It is important that the health  
and social service of the city be ad-  
ministered to the best advantage, and  
the public will unquestionably wait  
with interest the comprehensive plan  
which the excellent committee to be  
named by the mayor will at an early  
date present.

## The Public and the Primaries

There are not a few residents of  
Oneonta who do not believe at all in  
the direct primary system of nominat-  
ing officers and would preferably go  
back to the older one of caucuses with  
"open conclusions, openly arrived at."  
But there is probably a greater num-  
ber which thinks the other way about it  
and would be loath to have the se-  
crecy of the booth and ballot supplanted  
by the more open caucus proceed-  
ing. In particular it is believed that  
women favor the primary system. If  
this is the case and they desire to have  
it continued, they would do well to  
turn out in force on primary election  
day. The system has for several years  
had what generally is believed has  
been a fair chance, but the number of  
voters taking advantage thereof has  
not been large. Moreover, the cost has  
been great, when considered per capita  
for the voters casting their ballots,  
and it is not to be wondered at that there  
is much objection to its continuance.  
Whoever, therefore, is anxious to have  
the secret primary ballot and election  
retained as bulwarks against domina-  
tion by the bosses, would remember  
that these bulwarks are not made  
merely of the facilities for voting, but  
of voters.

## Careless Lunchers

There are a great many automobile  
parties driving about the country this  
summer, and as is quite natural a  
goodly number of them carry their  
lunches and stop alongside the high-  
ways to eat them. This is a natural  
thing to do, and their presence is often  
welcomed by farmers along their  
routes, since the tourists afford  
a good market for such sup-  
plies as fruits, milk and eggs.  
At least their presence would be  
welcomed were it not for the wanton  
disregard of public right which in  
many instances is shown in the dis-  
posal of what may be termed the gar-  
bage of an auto-tourist meal. It is but  
right when the luncheon is finished,  
that the wrapping paper and boxes,  
and the fragments of food which re-  
main, should be all picked up and  
carefully and properly disposed of.  
Too often they are left scattered by  
the wayside, if indeed the travelers  
have been content to keep between the  
fences. Not infrequently they invade  
meadows or pastures for the shade  
of a convenient tree, leave the same  
scattered debris and sometimes as an  
added injury forget or willfully neglect  
to close the gate or bars through which  
they found entrance to the fields.  
Is it any wonder, under such cir-  
cumstances, that pleasant things are  
not always said of auto-tourists and  
their ways? A paper trail, it has been  
said, marks the passage of the motor-  
ist from Buffalo to Boston and doubt-  
less much further. There is not one  
of these tourists who would not blit-  
terly denounce any such disregard of his  
own rights; and there should not be  
one who would wantonly disgrace the  
landscape over or by which he passes.  
It is hoped that none of these care-  
less lunchers are from Oneonta. If  
they are, whatever has been said about  
others applies equally to them.

## SUSPECT NOT BERGDOLL

SPECIAL AGENT GORVICK OF  
DEPARTMENT OF JUSTICE  
SO DECLARES.

Pictures of Bergdoll Supplied State  
Troopers Bear No Resemblance  
Whatever to Those of the Fugitive  
in the Hands of Gorvick—Sus-  
pect Remains in Oneonta and Will  
Be Arraigned as State Tramp.

"He's not Bergdoll" was the em-  
phatic declaration of Special Agent  
Samuel Gorvick of the federal de-  
partment of justice, sent to Oneonta  
to see the suspect arrested early  
Thursday morning between Wells  
Bridge and Unadilla by State  
Troopers McQuade and Turner and  
brought to this city and lodged in the  
city jail. Mr. Gorvick reached this  
city early yesterday morning and was  
taken at once to the city  
jail. He took but one glance  
at the prisoner, when he shook  
his head negatively, with the  
remark above quoted. Later in the  
day he gave the suspect a rigid ques-  
tioning, which availed but little, al-  
though after it was over the special  
agent said that the man quite likely  
is a fugitive from justice and may be  
another draft evader.

Gorvick would have taken the sus-  
pect to New York for an examina-  
tion, to see if any of the officers  
there could identify him as one  
wanted in any part of the country.  
Chief Horton, in whose custody the  
man was placed by the state troop-  
ers, did not look with favor upon this  
step and suggested that he remain  
here and be arraigned as a state  
tramp in view of the fact that the  
federal agent had no papers upon  
which he could be held. The man  
therefore, who persists in the de-  
claration that his true name is George  
Lenno and his old home to be at  
Buffalo, will be taken before Judge  
Huntington this morning, charged  
with being a state tramp. Mr. Gor-  
vick returned to New York city on  
the afternoon train. He took with  
him pictures of the suspect, and they  
will be scrutinized closely by men  
who are most familiar with the  
crooks the country over. The spe-  
cial agent will keep posted upon the  
disposition made of the fellow here.

During the day police headquar-  
ters was visited by a special agent of  
the Pinkerton agency, sent here  
from Syracuse, the superintendent of  
the agency there, who came to look  
over the suspect. He was unable to  
identify him as one wanted, although  
inclined to agree with the local offi-  
cials that he is a fugitive and not un-  
likely another draft evader. He also  
took pictures of the suspect and will  
make a search through the records of  
his offices.

One of the surprising features of  
the incident is the fact that the pic-  
ture sent out to police departments  
and provided the state troopers as of  
Bergdoll, bear no resemblance what-  
ever to the pictures of the real Berg-  
doll with which Gorvick, the special  
agent, is provided and which he says  
are excellent. In fact, the suspect  
looks like the picture with which the  
troopers are supplied, but nothing in  
the other pictures could possibly be  
imagined to resemble the suspect. It  
is amazing that two officers could  
possibly be supplied with two so dis-  
similar pictures of a man sought by  
the police departments from the At-  
lantic to the Pacific. That suspects  
are being taken into custody who  
prove not to be Bergdoll is not sur-  
prising when the false photos are  
seen.

Early in the day "Lenno" was given  
a shave and cleaned up and then  
his picture was taken in two poses  
by a local photographer. He looks  
much improved, but far from having  
the appearance of a son of a rich and  
indulgent family. He continues will-  
ing to talk, but while his stories of  
his movements prior to the past two  
years usually conform, he is widely  
at variance when talking about what  
he has been doing of late.

The suspect had in his possession  
some post cards which are usually  
addressed to Robert Dalton. His per-  
sonal effects were few. He had some  
cartridges but no gun when taken  
into custody. He had a little money,  
but was not well supplied. News-  
paper clippings included some of ball  
games in which Philadelphia teams  
participated.

## Will Keep Spring House Park Open

The Bath House company, at Rich-  
field Springs last winter stated that  
it was losing money on keeping the  
park open for the public, and that if  
the sum of \$850 was not guaranteed  
the park would either be closed or ad-  
mission charged. Several citizens of the  
city paid half the sum and guaran-  
teed the other half, and last week they  
were called upon to settle. An appeal  
for assistance was made, but before it  
had been largely circulated, Mrs. T. R.  
Proctor of Unca sent a check for the  
full amount, in memory of her late  
husband.

## The Population of Schoharie

The total population of Schoharie  
county is now 22,792, which is 2,532  
less than in 1910 and 5,551 less than  
in 1900. The only village in the county  
which shows increase is Cobleskill,  
which with 2,401 souls has increased  
222 in ten years. Richmondville has  
551 inhabitants, Middleburgh 955,  
Schoharie 531 and Sharon Springs  
460.

## WINDHAM CAR DOES STUNT

MAKES THREE CIRCLES AND  
BACKS OFF EMBANKMENT AT  
DIP NEAR FORD FARM.

None of Three Occupants of the Car  
Are Injured and the Car Escaped  
Without a Scratch—Occupants  
Conceal Identity and Proceed on  
Way After Car Is Drawn upon the  
Road.

Its improbability would doubtless  
prevent movie experts from staging a  
stunt reported to have been pulled  
off by a Moon touring car hailing  
from Windham and in which three  
passengers were riding, the site of the  
sensational act being in the dip in the  
state road to Kingston about five  
miles east of this city yesterday af-  
ternoon near the Aaron Ford farm.  
Motorists will recall the decided dip  
with a curve near that farm. The car  
was moving toward this city and the  
oiled road was slippery, rain falling at  
the time. When the car reached the  
sharpest angle of the curve it com-  
menced to skid and according to those  
who arrived shortly after the occu-  
pants declared that the car skidded  
about in a circle three times and then  
having nearly come to a standstill  
backed gently off the upper or east-  
erly side of the road down a 25-foot  
embankment. The car remained right  
side up during the performance and  
none of the passengers, consisting of  
a man and two women, were injured.

Soon after the accident "Joe" La-  
monica, driving one of the big trucks  
of Frank Lamonica, the banana deal-  
er of this city, arrived and with the  
aid of some tackle secured nearby  
the motor car was hauled back into  
the road and a careful examination  
of it failed to disclose any damage  
to it, not even the slightest scratch  
of the paint nor the least damage to  
the working parts.

After paying Mr. Lamonica for his  
trouble, the Windham man started his  
engine and requesting his two com-  
panions to be seated, he drove on in  
the direction of this city. He is said  
to have stated that they were making  
a trip to Albany and came this way  
for the ride. No one could be found  
to whom they revealed their identity  
and they evidently purposely kept  
this a secret.

There were numerous motoring par-  
ties at the scene following the ac-  
cident and before the car was gotten  
back into the highway, and much sur-  
prise was expressed by all that the  
accident could have happened in the  
manner described. The curve is a dan-  
gerous one when approached at any  
speed from the east and especially so  
with the road wet.

## Unappreciative

Avery Goodman of Portlandville is  
something of a literary critic. "I see,"  
said Avery, "that the wife of Harold  
Bell Wright has got a divorce, and  
that he's married again. He says his  
first wife was cruel 'cause she didn't  
appreciate his literary attainments.  
I've just read his last book, and, by  
gon, I don't!"

## Oneonta: My Oneonta!

That "the nation, the state, the com-  
munity is what its mayor make it is  
a truism which cannot be disputed.  
What of my Oneonta? Is it what I  
want it to be? Physically it is beau-  
tiful for situation and promise in soil  
production on the banks of the great  
Susquehanna and near to the Mohic-  
ans' camping grounds; it is famous  
in legend and story. What of my  
Oneonta "when all the prospect  
pleases and only man is vile?"

If Oneonta is to be of good rep-  
utation, it is important that the moral  
forces shall by sympathy and word  
support the local officials in enfor-  
cing the laws of city, state and na-  
tion. We have elected our officials  
and they have taken the oath of of-  
fice to maintain law and order in the  
city. Our police commissioners and  
police are doing their duty to-  
ward both law keeper and law breaker.  
Our mayor is acting well his part.  
Judge Huntington is fair and useful in  
his judgments.

Now if you have any love for the  
good name of our Oneonta, stand by  
the officials in their effort in the en-  
forcement of the laws which you  
have sworn them to enforce. Talk  
them up. Boom Oneonta. Discour-  
age the law breaker. Be construc-  
tive in your sympathies and words.  
Be right.  
Sincerely,  
A Citizen.

Wet Deather Brings Mold, Honey Dew  
and Lice, to Hops.

Schoharie valley hops, which until

some of the vines.

Picking of early hops began Wed-  
nesday morning in the big H. V.  
Pondar and in the Roy Vroman

pickers. Old hops have recently been  
sold here for 20 cents, and growers

## LOCAL MENTION.

—A car load of Ford truck chassis were received in the city yesterday by the Oneonta Sales company.

—Belden hill is reported closed to motorists because of the construction of two new bridges at the foot of the hill. Motorists from this section will doubtless take the Windsor route until the road is re-opened.

—If it is consolation to anybody, The Star takes opportunity to note that thirty days have now passed since St. Trinity's day and that ten days only remain in the legendary rainy period. While it hasn't rained every day, the downfall has been sufficiently abundant.

—Francis Lonz, residing on Miller street and about 15 years of age, was removed from the D. & H. roundhouse to the Fox Memorial hospital in the ambulance late last evening suffering from a cut on the right wrist sustained while at work. The injury was not serious and after the wound had been dressed he went to his home.

—Many shoppers were in the city yesterday, notwithstanding the unfavorable weather. The number was no doubt largely increased by the special sale liberally advertised by the Oneonta Department store which commenced yesterday. No doubt exists also that other shops reaped some benefit from the announcements of the big sale.

**Severe Storm Last Night.**  
For several hours last evening this vicinity was in the grip of a severe electric storm, the severity of which is not known at present, but the tale told by one motorist, who reached this city about 9:30 o'clock gives the impression that some parts of the country were badly storm swept. His statement was that while coming over the road from Gilbertville, he encountered as many as three telephone poles blown across the way and that in one case he was forced to obtain the help of a farmer to assist him in removing the obstruction. Oneonta and Silver creeks, which flow through the city, overflowed their banks and filled the streets with water to such a depth that pedestrians were forced to wait a considerable time before they could proceed. Theatre goers at the Strand were forced to wade through several inches of water in order to reach the theatre or were carried to the door by automobiles.

**Cave Men of Long Ago**  
Used to kill game, eat what they needed for the day and throw the rest away; yet strange as it may seem, there are people of today who don't think or look ahead to the lean, weary years that are sure to come—and are similar to the cave men. Well, I'm helping them to save some of their meat for days when the game will be scarce and have thus helped a lot of them to save a little each day—and they now have several million dollars worth. Uncle Sam knows of the good work that I am doing, puts me on the back and helps me. I'm now starting another big bunch to thus save half a million more, so that when game gets scarce, they won't get ugly; try to make careful and prudent people drive up and thus force Uncle Sam to use the big stick. Thinking people of Oneonta and vicinity, know of the grand work that I am doing and therefore say kind things about and help me. By telling all of the cave men of today, as to how I help them, we may save a lot of trouble later. It's great work. I am the safe and sure Oneonta Building and Loan association.

## IN UNION FOR THE PUBLIC GOOD

PLANS AFOOT FOR CO-ORDINATION OF HEALTH AND SOCIAL WELFARE ACTIVITIES.

Many City Organizations Represented at the Meeting Yesterday at Municipal Hall—Much Interest Manifested—Mayor to Appoint Committee to Draft Constitution and Name the General Body—Headquarters Probably in Former Library Building.

Despite the heavy rainfall which yesterday came a little before the hour of four, there was a representative gathering of men and women or Oneonta assembled by invitation in Municipal hall for the purpose of considering publicly a plan which previously had by thoughtful business and professional men and social workers been mapped out—one by which all the health and social welfare work of the city might be grouped about a common center and carried on from a single headquarters. With less discouragement by the weather, there would doubtless have been many more in attendance; but those who assembled showed by their remarks and by their inquiries that they were deeply interested in whatever would work for the best interests of the city as a community.

The meeting was called to order by A. B. Tobey, who nominated Mayor A. E. Ceperley as chairman. The election, as that of Miss Short as secretary, was made unanimous. The Mayor briefly thanked the meeting for the honor and called upon Dr. George W. Augustin to state the purpose of the gathering and to outline the plans which tentatively had been suggested. This purpose, Dr. Augustin said, was to correlate all the social service and health activities of the city under one administrative head, with headquarters at one place, which it had been suggested should be the public library building on Ford avenue, which has been vacant since the removal of the library to the Huntington building a month ago.

Among the organizations which it was suggested should unite in this way are the Federation for Social Service, the Red Cross, the health and tuberculosis activities of city and county, the city nurse, and as an educational center and as headquarters for the Boy Scouts and the Camp Fire Girls. This work, at least so far as relates to headquarters, will probably be largely financed by the Red Cross.

Under the present plan, the speaker said, much work overlapped, and either was undone or done twice over. To combine these activities at one place would save the city money and be in line with what is being done in the most advanced cities of the state. The plan would be to have the work as a whole in charge of an executive committee, with direct supervision of an executive secretary, paid and trained for the work.

Miss Short, county tuberculosis secretary, followed with an explanation of the work of the various health organizations and of the good which would result from coordination of effort, and she closed with a picture of what could be done if health, community and civic interests were linked harmoniously together and all working for the general good.

Brief remarks were made and questions asked by several present. Mrs. A. E. Ford speaking for the Girls' club, Mrs. L. S. Dwyer and Mrs. H. W. Lee for the Federation for Social Service, Rev. N. S. Burd for his section of the town, and Mr. Saxton for the public library, and a letter was read from E. W. Eimore heartily approving the work as outlined. While there was naturally some differences of opinion relative to the matter, there was general belief that the library building, in the hands of some responsible organization, should be used for general good of the community. Subsequently Dr. Augustin outlined the tentative plan, by which the first floor should be used for the executive secretary, the health officer, Red Cross, Social Service secretary and county room. On the second floor would be located the health center room and waiting room, the dental and health clinics, and the rooms for girls' clubs, with possibly the present garage remodeled and made into rooms for the Boy Scouts and Camp Fire girls.

On motion of Dr. Brownell, it was voted that a committee of thirteen be selected, to consist of the mayor, county secretary and health officer, with ten others to be named by the mayor, who should formulate a definite plan and report at a meeting subsequently to be called. The mayor announced that announcement of the appointments would be made through the press and by letter to the appointees, after which the meeting adjourned.

The matter is one which needs careful consideration in order satisfactorily to work out the plan, but there is no doubt that the committee will give that consideration to the end that the greatest good to the greatest number shall be accomplished. At the later meeting the proposed constitution and by-laws of the society, which is to be an incorporated body, will be presented for consideration and it is hoped that all interested, which should mean every public spirited citizen, will be present.

## AND NOW WITH SUMMER AT AN END

The Mappy Students Drift Afar to Bellegrove and to Hilder Bar, to Askeboque and Kinderhook, and Rockaway and Nanticoke.

The annual summer session of the State Normal school came to a close, with the final examinations on Thursday, and yesterday witnessed the exodus of practically all of the 725 students who have been in Oneonta for the past six weeks. Both steam and electric railways had made provision for the increased traffic, and as a result all the students were accommodated. The morning trains perhaps carried away more than the afternoon, but all were well filled with students on their way to their homes. A surprisingly large number also left the city by auto, the parents of the students coming here to accompany them back.

Probably few citizens realize what the summer school means to Oneonta, financially speaking. It is estimated by one close in touch with conditions that during the six weeks they were here, the students leave approximately \$75,000 in the hands of local business firms and other seekers after the coin of the realm. With nearly 750 students in the school, this would mean that each one spends \$100. This perhaps may seem a little high but it should be remembered that board is a big item and, also, a large number of the students come from rural sections where they do not have the opportunity to purchase "the latest styles" and hence when they cast their eyes into the show windows of Oneonta merchants, the dollars quickly disappear. Many parents of the students also come to Oneonta while the session is in progress to visit their daughters, and they too leave money in the city. Hence, the estimate of \$75,000 does not appear to be without foundation.

With the summer students gone, the members of the faculty will have their first opportunity in nearly a year to get a good rest before the regular term begins on September 8. The boarding house keepers also will appreciate the respite from their arduous duties.

Most everyone who lives about Normal hill, however, will be glad to again see the students next month. Normal hill is not Normal hill without the Normals, the students having become a fixed addition to the life of that section of the city and when they are absent there is a noticeable gap.

The attendance at the 1920 summer session was the largest on record, indicating that O. N. S. never loses its popularity with those following the profession of educating the youth of our country.

## BULLET STILL IN HEAD.

Monroe Boy, Accidentally Shot by Sister, Remains in Hospital.

Almond Monroe, the eight-year old son of George Monroe of Crumhorn mountain, who a week ago today was brought to the Fox Memorial hospital, suffering from a bullet wound in the head, is still at the hospital. Inquiries made yesterday indicate that his condition is good and without complications and that the chances for his recovery are favorable.

It appears that the boy and a 15-year-old sister were attempting to capture a woodchuck, which had entered a culvert near their home. The boy ran to one end and the girl to the other, the latter carrying a 32-calibre revolver. Seeing something moving at the opposite end of the culvert, she thought it was the woodchuck and accordingly fired, the bullet hitting her brother between the eye and nose. The bullet has not as yet been removed from the head.

The victim is one of the sixteen children of Mr. and Mrs. George Monroe.

## Joy-Rider Caught Yesterday.

Gordon Schwanninger of this city was arrested yesterday on the charge of larceny. He is alleged to have taken the Ford touring car of Lawrence Adcox without his permission and to have driven it about the city and out in the country for some distance. The case will be tried in police court this morning at 9 o'clock.

## DOUBLE HEADER TODAY

Cubs to Play Scranton and Mohawk Teams This Afternoon—Only One Admission Charge for Both Games—Cubs at Otego Sunday.

The Scranton inter-county baseball club arrived in Oneonta yesterday for the fourth game of their \$1,000 series, with Weidman's Cubs, but Friday the 13th proved to be unlucky as regards weather and by the time Jim Brodie is usually ready to announce "the battles of today's game," Neahwa park resembled a fish pond more than it did a ball diamond.

Immediate arrangements were made between the managers of the two teams for the game to be played off this afternoon, and the Scranton players remained here over night. Both managers were confident last night, that with their teams rested up, victory was theirs today. If the Cubs win the game today, the series will be tied and the toss of a coin will decide where the fifth battle will take place. If Oneonta loses, goodbye \$1,000.

Owing to the postponement yesterday, there will be a double header this afternoon. The Scranton-Oneonta game will be called at 2 o'clock sharp. The second game, between the Cubs and the Mohawk Athletics, will be called at 4:15. The Athletics are a fast bunch and will make the Cubs hustle. Only one admission will be charged for the two games, thus giving Oneonta fans a full afternoon of baseball.

The Cubs will play at Otego Sunday.

## Telephone Rates Under Discussion.

Attorney Owen C. Becker and Mayor A. E. Ceperley spent Wednesday and Thursday in Albany attending a meeting of the city officials called for the purpose of taking action upon the substantial advance in telephone rates filed by the New York Telephone company and other companies. The New York Telephone company covers a large portion of the state and the advance will apply generally to the whole of the state.

The Public Service commission will be asked by the Mayor's conference to investigate as to whether the proposed advance in rates are warranted, or not, and to render a decision accordingly. So far, no advance in rates has been filed by the Otego and Delaware Telephone company.

The advances filed by the New York Telephone and other companies will be effective on September 1st. This is the third raise in rates since the beginning of 1919.

### FAMOUS COMEDIAN COMING.

George Wilson With Gus Hill's Minstrels at Theatre Tuesday Evening.

In all probability there is not another artist on the stage who has more admirers than George Wilson, the famous comedian who is a member of Gus Hill's Minstrels, which will appear at the Oneonta theatre Tuesday evening, August 17. That colossal organization of songsters, dancers, musicians, farceurs, hilarity experts and gloom destroyers, are now making theatrical history over all of the country. That splendid combination of melody and mirth has all the charms of minstrelsy of the bygone era, in addition to all the latest novelties which embrace modern surprises and the last word in jazz music. Mr. Wilson will hold forth at the helm of that peerless company of fifty black-face stars with a new routine of unadulterated fun which marked his long regime at the Hippodrome, New York City, where he attracted thousands of patrons for one solid year. During that engagement his work came in for unstinted praise from Gotham's leading critics, including Charles Dillingham, who declared he is the most original laugh-getter who ever graced the stage of the Hippodrome.

### RECOVERING SUNKEN CARGOES.

L. T. Ingram Takes Ride in Ford Car Which Had Been in Water Two Years.

Lawrence T. Ingram of the Elmore Milling company, who returned last evening from a few days business stay in New York city, relates that he yesterday took a ride in a Ford car in Jersey City which last week was at the bottom of the sea where it had been since August, 1918. It seems incredible, Mr. Ingram states, that a ship loaded with Ford cars and ambulances, several hundred in number, was sunk in Ambrose channel near the lighthouse in the month stated. Now the salvage concerns are recovering the cargo and that as soon as it is recovered the cars are gone over and cleaned and sold. The chassis when properly cleaned are bringing \$300 and are selling rapidly at that figure. The tires are scraped and dipped in talc. Goodyear tires with inner tubes in them which have been in the water for the two years are found to be in good serviceable condition when cleaned and are selling at \$18. They have some fungi upon them but when ready for sale are not readily distinguished from new tires. Mr. Ingram declares it to be surprising how quickly the cars are gotten into condition for the market after being removed from the crates.

### The Fay-Pickens Reunion.

About 50 members of the family were present from Troy, Oneonta, Laurens, Mt. Vernon, Hartwick, Schuyler Lake, Cooperstown, Richfield Springs, Burlington Flats, Maple Grove, Exeter and Carbondale, Pa. A delicious dinner was served to the guests and the remainder of the day was spent with games and other amusements. The following officers were elected: President, Burt Hinds of Burlington Flats; vice president, Emerson Winters of Exeter; secretary and treasurer, Mrs. Claude Hinds of Richfield Springs. Burt Hinds has invited the family to his home for next year's reunion.

### The Vincent Reunion.

An excellent dinner was served and later a business meeting was held, at which the following officers were elected: President—George C. Vincent of Smithboro. Vice president—Mrs. O. J. White of Vestal. Secretary and treasurer—Miss Edith L. Dye of Oneonta. The day was greatly enjoyed by all and it was voted to hold the next year's meeting at the Vincent home in Smithboro. Among those present from a distance were Mr. and Mrs. George C. Vincent and son, Edward, of Smithboro and Mr. and Mrs. O. J. White and Mrs. Dwight Wakeman of Vestal.

### NIAGARA FALLS.

If you can imagine a river three-fourths of a mile wide, 20 feet deep in the middle, and containing thousands and thousands of tons of water, suddenly tumbling over a cliff 160 feet high and dashing on the rocks below with a deafening roar and throwing up huge clouds of mist and spray, you have some impression of what Niagara Falls, the world's best-known and most popular waterfall, is like.

This majestic cataract is situated in the Niagara river, between Lake Erie and Lake Ontario and near the city of Buffalo, N. Y. Nyah-gah is an Indian word, meaning Thundering Waters. Members of the Seneca tribe, 'tis said, considered the roar of the falls as the voice of the Great Spirit. Thinking he inhabited the spray, they made many and various offerings to this deity.

The waterfall divides itself into two parts, American Falls and the Horseshoe or Canadian Falls. Nine-tenths of the flow, which is estimated to be 500,000 tons per minute, passes over the Horseshoe Falls, which is by far the more impressive of the two.

Below the falls the river is considerably narrower than it is above the falls, and the water rushes at a frightful speed, through a seven-mile-long gorge, in which is located the famous Whirlpool Rapids.

The edge of the cliff over which the water plunges into the canyon below, wears away at the rate of about five feet a year. Geologists declare that this mighty fall has been in operation for about 20,000 years.

### Process Developed by War.

Making parabolic mirrors by chemical deposition on a glass mold is described as one of the war-quickened processes. A layer of silver was deposited chemically on a highly polished glass mirror, and was thickened electrolytically, after which it was given a sixteenth inch plating of copper and a suitable backing of strengthening material. Difference in expansion on heating gave a ready means of loosening the metal from the glass. The silver surface was given a waterproof and heatproof coating of lacquer, and was ready for use in much less time than would have been required for grinding and polishing a glass mirror.

## CANNIBALS ONCE PEOPLED TEXAS

Discovery Made That Prehistoric People Were Different From Indians.

### HAD REGULAR CAMP SITES

Life History Read From Records They Left in Their Burned-Rock Mounds —Advanced to Stage of Paleolithic Culture.

Austin, Tex.—Evidence that Texas was inhabited by a prehistoric people different from the Indian who roamed the plains when the first white man came has been unearthed by James E. Pearce, professor of anthropology of the University of Texas. The early inhabitants, he said, lived a nomad-like existence, roaming from one part of the wilderness to another and killing, with rude stone weapons, animals and even humans for food.

In co-operation with the Smithsonian Institution bureau of ethnology, Prof. Pearce has been investigating the mounds for more than a year, he reported.

"The life history of these people has been read from the records they left in their burned-rock mounds or kitchen middens," the professor said. "These mounds are piles of broken and charred bits of limestone three or four feet high and sometimes as long as 100 feet.

### Had Regular Camp Sites.

"They are made up of the kitchen refuse of these prehistoric peoples, who had regular camp sites at frequent intervals along the Edwards plateau, extending from Austin westward to New Mexico.

"These people evidently were advanced to the stage of paleolithic culture, an earlier age than the period of Neolithic culture, to which most of the American Indians belonged. These early Texas inhabitants had arrows and spears tipped with flint points, chipped but not polished. They did not polish their stone weapons, nor did they engage in any form of agriculture. They were, however, skillful skin dressers, for we have found scraping tools made of flint.

The kitchen middens which we discovered are the only thing of their kind in America, so far as I know, although they had been found in other parts of the world. At these sites, camps were located with a great fireplace in the center, over which huge slabs of limestone were placed as a sort of primitive stove, upon which to cook the meat the inhabitants killed.

### Cannibalism Practiced.

"We know these people were cannibals, for among the refuse heaps have been found human bones split apart in order to get at the marrow.

"The soft limestone slabs, being exposed to the weather, broke from time to time, and were cast aside nearby, to be replaced by new ones.

"In the course of our investigations we have completely examined some fifteen of these mounds and in them have found thousands of splendid specimens of chipped arrow and spear heads, as well as scraping tools and other implements. Bones of the deer, which were prevalent in this region, are found in profusion, indicating that this was the principal article of diet."

### BIG TREE YIELDED TO AGE

Chestnut in Which Washington Is Said to Have Hidden Collapses at Yonkers, New York.

Maybe there's no truth in the tradition that George Washington once hid in the hollow trunk of the great chestnut tree that until recently stood in the front yard of Charles F. Coy, Yonkers, New York. But folk thereabouts believe he did, just as they believe that the tree was 700 or 800 years old when it died a few years ago, and was the oldest and biggest tree of any variety not only in Westchester county but in New York state.

The trunk, which was about 35 feet tall and about 35 feet in circumference, according to Mr. Coy, was cut down by the department of public works of Yonkers, and its dismembered remains carted away. Said Mr. Coy:

"Before it died that tree produced the biggest and sweetest-tasting chestnuts I ever saw. After its death a vine that covered it made it still an object of beauty, just as its vast size and age made it an object of admiration.

"The top was broken off about the time it died. I never knew its exact height. But I do know that a deal of tradition had grown up around it and that it commonly was rated the largest tree in this part of the country. I am sure it was the biggest in this county."

**Boy "Policeman" Gets Results.**  
Bill Zerbe, formerly of Indianapolis, is motorcycle policeman in the Longmont police department. Both the young and old know Bill because of his record as a tamer of speeders.

A few days ago the driver of an automobile permitted the motor of his machine to run while he went into a store. When he came out he found a piece of paper in the front seat of the car. On the paper were these words: "You are pinched for permitting the engine of your machine to run over 15 minutes. Bill Zerbe."

The driver of the car went to police headquarters to pay his fine and exhibit the evidence that he had been caught. On being assured that the paper presented had not been prepared by Zerbe, the driver of the machine recalled that he had seen a small boy with a broad grin on his face standing near when he started toward the police station.—Indianapolis News.

### HUSBAND IN DUNGEON 17 YRS.

"Widow," Married Again, Just Finds Out He Is Alive in Petrograd Hospital.

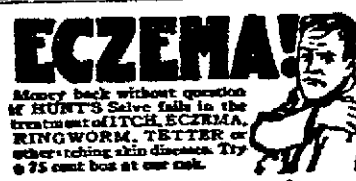

Tokyo.—A letter has been received from a man reported killed in the Russo-Japanese war in North Manchuria by his supposed widow, who has been married to a second husband ten years.

A sergeant named Jinkichi Onishi has been missing since the battle of Liaoyang. The authorities and his family concluded he had been killed, and funeral ceremonies were observed. His "widow" married again, children being born by the second husband. Now, after 17 years, Onishi writes, reporting himself safe in a hospital in Petrograd.

According to his letter, at the time of the Russo-Japanese war he was taken prisoner and has ever since been in a dungeon, which he was never allowed to leave until he became ill.

### Pays for Missing Pump.

Swanton, O.—John Perkins placed a well on his farm in 1914. A short time later the pump was stolen. He has just received a letter from a man in Texas, who was here at the time and who confesses to having stolen the pump. He asks for a bill so he can pay and his conscience again rest easy.

### DEALERS ON SUGAR MARKET CUT PRICES

Fine Granulated Sugar Reduced  
From 21 to 17 Cents—Market  
Evidences Weakness

New York, Aug. 12. — Heavy decreases in the sugar market, foreshadowed by movements during the past few days, took place today. One dealer reduced his list price on fine granulated sugar from 21 to a fraction over 17 cents per pound, and raw sugar sold on a basis of 13.04 cents, which was ten cents per pound lower than the high level of three months ago.

A pronounced weakness in raw sugar began early in the week, noticeable in future contracts on the exchange and in the stock market. "Second hand" sugar, or speculative stocks, has been offered for some days at 15 cents per pound for fine granulated, but no weakening on the part of refiners was in evidence until today.

Holders of large stocks of sugar expressed the fear that they had overestimated their market. Dealers declared the present weakness is due to lack of demand for refined sugar, free offerings from all parts of the world, and a feeling of unrest throughout the trade. Lack of demand indicates that heavy purchases early in the season were not entirely for immediate consumption.

#### West End Church Picnic Held.

Despite the unfavorable weather of yesterday, the picnic of the West End Baptist church was held at Neahwa park as planned. It was attended by about 100 persons, who enjoyed the delicious refreshments and many of them participated in games and other contests. All report a fine time despite the rain.

### WAR HERO WINS BRIDE DESPITE CUBAN RIVAL

Man Who Served Under Eight  
Flags Surrenders to  
Washington Girl.

A veteran of five wars, serving under eight flags, decorated by two kings for bravery—Capt. Pat O'Brien has finally lowered his flag and surrendered. His captor is the present Mrs. Pat O'Brien. He capitulated to the charms of the American girl whom he met in Cuba and asked for no quarter. Overcoming all obstacles, including a rival in the person of a high Cuban official, Captain O'Brien finally won the young woman, who, before her marriage, was Miss Virginia E. Allen of Washington, D. C.

The captain won fame when, as Lieut. Pat O'Brien, he fell 8,000 feet in an airplane and found himself 60 miles inside the German lines. He crawled most of that distance back to the allied army, taking 71 days to make the trip.

Captain O'Brien started out when twenty years old to be a soldier of fortune and he liked it so well that he followed the profession until at last fortune smiled on him when he won his bride in the green of the southern island. His life as a free lance would furnish suitable plots to meet the desires of any Harold MacGrath of Richard Harding Davis.

The captain and his bride are now visiting in Detroit. They will continue their honeymoon trip to California, where they plan to "live happily ever after."

### TO DESTROY INSECT PESTS

Two Forms of Insecticides Necessary  
for Successful Protection of  
Plants and Foliage.

Do not waste your time spraying Paris green on insects that suck the juices from plants and foliage, such as lice, green, black and white aphids or fly, mealy bug, red spider and scale, by thrusting their proboscis into the leaf or stem, for they are not affected by stomach poisons. They must be destroyed by contact insecticides. These in powder form kill by closing the breathing pores in the insect's skin, or in fluid form by being absorbed through these pores. The American Forestry Magazine points out. The best contact insecticides in powder form are hellbore, slug shot and tobacco dust. The best in fluid form are aphine, black leaf 40, fish (whale) oil soap, nicotine (tobacco extract), kerosene, miscible oil and lemon oil.

Insects that eat plants, foliage, vegetables, fruits, flowers, etc., whether bugs, beetles, worms, caterpillars or slugs are more quickly and effectually destroyed with a poisonous stomachic insecticide such as arsenate of lead, Paris green or hellbore. These, if applied according to directions, are so diluted as to be harmless to vegetation and to animal life. Less poisonous stomachic and contact insecticides are kerosene emulsion, slug shot, etc.

Tortoise Shell.  
The best of tortoise shell will get dull in time, but a good jeweler always knows how to bring back the prismatic luster. Combs, barrettes and pins that have become clouded and dingy—real tortoise shell, of course—will come back from a jeweler who understands his business looking as good as new. To brighten the imitation shell hair fixings wash them first with a little tepid water and then polish with a bit of charcoal dipped in olive oil.

GOD'S COUNTRY AND THE WOMAN  
FEATURING WILLIAM DUNCAN

"God's Country and the Woman" is a thrilling story of the timber lands. Indian guides and wolf-dogs play important roles in James Oliver Curwood's tale. The fight at "Devil's Nest" and the burning of the cabin are spectacular scenes that will long be remembered. William Duncan displays his powerful physical strength and athletic training to advantage and strives for realism as Philip Weyman.
